Advantages of Peat Sorb Over Clay Based Absorbants

COST EFFECTIVE:

One-PS2 Peat Sorb Bag, weight 30 to 34 lbs., 4 cubic ft. of product compressed to 2 cubic ft, with a 7% water content is equal to:

- 2-1/2 bales of 18" x 20" x 3/8" poly pads
- 600 to 900 lbs. of kitty litter, or clay sweeping compound

- Absorbs on contact, much less clean-up time
- Much less material to dispose of, 1 lb. picks up one U.S. Gallon of oil and will pass T.C.L.P. for landfill

USER FRIENDLY:

- Non-Toxic, Non-Hazardous
- Lightweight
- Non-Biodegradable naturally occurring product
- Non-Abrasive

SPECIAL FEATURES:

- Complete encapsulation of hydrocarbons
- Non Leaching
- Picks up hydrocarbons ON WATER as well as on land
- Suppresses flammable vapors
- Is approved SEG Incinerable
