

FOR IMMEDIATE RELEASE:

May 14, 2009

Today, New York Bus Sales and Suburban Propane have announced their partnership in providing school bus operators with propane as motor fuel purchasing program.

New York Bus Sales and Suburban Propane have entered into a “National Major Accounts Client Program Master Agreement.” *This agreement will allow customers of New York Bus Sales who purchase the Propane Powered Vision (BBCV), to receive propane as motor fuel at a significantly reduced rate AND will allow the school bus operator to collect the \$.50 per gallon VETC credit directly.* **Additionally, this agreement also provides a propane tank and dispenser for the school bus operator’s use so there is no equipment purchase necessary.**

For more information on this program or to learn more about the Propane Powered Vision (BBCV) please contact your New York Bus Sales representative or call the main office at 1-800-962-5768
