

NEW YORK BUS SALES

## Service Update 16-0201-2

### Laminated Dash Icon Sheet

Previously we provided dash “posters” for both the Blue Bird Vision and All American Cummins diesel powered and Vision Ford/Roush propane powered units to clarify the icons on the dash cluster for both drivers and technicians. You asked if something “smaller” is available so that in the event of a light activation drivers would have something to help identify the problem and its severity. We have taken the wall poster and made a smaller 8-1/2” X 11” laminated version that you can carry in the bus. Each unit delivered this year will have this smaller version.
