

## Light Check Feature #30109-01

### Sales Update #17-02

### Light Check No Longer Includes Back-Up Beeper

With the 2015 production, Blue Bird discontinued the “Back-Up Beeper” as part of the “Light Check” system (#30109-01) which is a standard feature.

This is not a “programmable” feature and was done because units were being started and pre-tripped in residential areas causing issues with local residents.
