Follow-Up Update:

Zero-Emission School Bus Mandate

Dear Customers,

As a follow-up to our previous email regarding the proposed extension to New York State's zero-emission school bus mandate, we wanted to share that the legislation has now officially passed as part of the budget bill.

2025-S9667 (ACTIVE)

See Assembly Version of this Bill: [A10896](#)

The **approved** legislation delays the zero-emission school bus mandate by five years:

- The requirement for school districts to only purchase or lease zero-emission school buses has been extended from **July 1, 2027** to **July 1, 2032**
- The requirement for full fleet conversion to zero-emission school buses has been extended from **July 1, 2035** to **July 1, 2040**

TITLE OF BILL:

An act to amend the education law, in relation to delaying the zero-emission school bus mandate

PURPOSE OR GENERAL IDEA OF BILL:

To extend the statutory deadlines for school districts to transition to zero-emission school buses by five years.

We know many of our customers have continued asking questions regarding extensions, timelines, and waiver information, and we will continue sharing updates as additional guidance becomes available.

Thank you,
New York Bus Sales
