Company Update #26-0528

Labor Rate Increase

Dear All,

At New York Bus Sales, we remain committed to providing dependable service, experienced technicians, and the highest level of support for your fleet. As operating costs and industry demands continue to evolve, we have made the decision to adjust our labor rates to help us continue delivering the quality service you expect from our team.

Effective June 1, 2026, our service department labor rate will increase to \$205.00 per hour.

This adjustment allows us to continue investing in:

- Ongoing technician training and certifications
- Advanced diagnostic equipment and tools
- Improved service capabilities and support

- Maintaining the high standard of service your fleet depends on

We truly appreciate your continued partnership and the trust you place in New York Bus Sales. Our team remains dedicated to keeping your buses operating safely and efficiently while providing the responsive support you deserve.

If you have any questions regarding this change, please feel free to contact our service department using the contact information below.

Thank you for your continued business and support.

Sincerely,
New York Bus Sales, LLC
