## **New Rubber Channel Requires Updated Tool**

Updated window/windshield rubber gaskets on many vehicles now have a larger “locking” strip for better sealing and the tool which many of us have used previously (Below in Figure #1, Right in Figure #2) does not work well. New York Bus Sales has found a tool which fits the larger locking strip and works well to install it (Above in Figure #1, Left in Figure #2). We have available as just the 7/16” for the larger locking strip or as a kit with the various sizes!

<b>Part #</b>	<b>List</b>
<b>#2011022 – 7/16”</b>	<b>\$35.91</b>
<b>#2011021 – KIT</b>	<b>\$182.86</b>
