

Blue Bird Gasoline Vision

POWERED BY FORD® AND ROUSH® CLEANTECH

The Lowest Acquisition Cost of Any Type C Blue Bird Product

The all-new Blue Bird Gasoline Vision will provide instant savings with the lowest acquisition cost of any other Type C Blue Bird product. This gasoline-powered bus will also share operational similarities to the Blue Bird Propane Vision, such as smooth, quiet engine operation and reliable cold weather startup.

Easy to Maintain

Maintenance and repairs are easy. Qualified technicians are easier to find, with many already trained to work on gasoline engines. Like its propane counterpart, the Blue Bird Gasoline Vision eliminates the need for complex diesel aftertreatment, and has no diesel particulate filter or diesel exhaust fluid system to maintain, reducing maintenance costs for your fleet.

Reliable Engine Technology

The Ford 6.8L V10 Engine has been utilized in over two decades worth of Ford products, certifying their durability and reliability in the truck market. It comes with the industry's best 5-year, unlimited mile warranty, and a network of service centers throughout the United States and Canada to allow for quick turnaround on service.

Ford has produced over 1.8 million of these engines since introduction, a testament to their quality and reliability. Paired with their 6R140 transmission and engine fuel system, the 6.8L V10 engine from Ford is the perfect fit for a school bus application. The gasoline-powered bus will utilize the same powertrain as Ford's new F650/750 medium duty commercial truck and delivers industry segment performance and durability leadership for Blue Bird's gasoline bus offering.

Blue Bird Gasline Vision Highlights

A Strong Partnership

Working with our long-time partners **ROUSH CleanTech** and **Ford** on our propane autogas bus has proven that these companies are the best choice for our gasoline-powered bus.

5-year, Unlimited Mile Warranty

The Blue Bird Gasline Vision comes with the same 5-year, unlimited mile warranty that Blue Bird's other Ford/ROUSH CleanTech product lines have- showing the durability and reliability of these systems.

Powertrain Matching

With over 1 million Ford 6.8L engines and 6R140 transmissions working together on the road today, there's no question that Ford's powertrain matching is perfect for a school bus application.

Go the Distance

The Blue Bird Gasline Vision features a standard 60-gallon tank, but has a 100-gallon tank option: perfect for long-distance traveling!

Plenty of Power

With 320 horsepower and 460 ft-lbs torque, the Blue Bird Gasline Vision has plenty of power for on-highway applications and hilly or mountainous terrain.

Nationwide Fuel Accessibility

Gasoline stations are located in nearly every town in North America, making quick stops and cross-country trips easy.

SPECIFICATIONS

CAPACITY	Multiple floor plans available with passenger seating up to 78	TRANSMISSION	Ford® 6R140 - 6 speed automatic
EXTERIOR WIDTH	96"	ENGINE	Ford® three-valve 6.8L V10 Gasoline, 320 hp
INTERIOR WIDTH	90 3/4"	TIRE SIZE	11R22.5 (G) all-position radials
AISLE WIDTH	Varies by floor plan	ALTERNATOR	240, 270, and 320 amps with 12 volts
SKIRT LENGTH	16 1/4", 19 3/4", 25 3/4"	BRAKES	4-wheel hydraulic disc brakes with 4-channel antilock brake system; Air drum and air disc brakes available
INTERIOR HEIGHT	77"	SUSPENSION	Soft ride front leaf spring suspension (rating varies by capacity); Two-stage steel leaf rear spring suspension system (rating varies by capacity); Rear Air suspension available
