

AMETEK DASH CLUSTER

Parts Update #17-0928

Dash Cluster Navigation Button Covers

It's been brought to our attention that customers with the new Ametek dashes have seen the rubber covers for navigation buttons (#11 in Figure #1) come free and get lost, which require being replaced. Customers believe they may have "popped" out when the dash was being cleaned. Figure #2 shows what the dash looks like with the cover missing.

ALL of our Service Updates can be found on the [New York Bus Sales website](#)
Or at the [New York Head Mechanic website](#)

PLEASE NOTE – THIS IS BASICALLY A COVER TO PREVENT DUST/DIRT FROM GETTING INTO THE DASH. HAVING IT NOT THERE DOES NOT IMPEDE THE OPERATION OF THE DASH.

The actual button “humps” are not centered on the rubber strip, so attention needs to be paid when reinstalling. (Figure #3). The cover is held in place by design. The cover is designed to go over the buttons and extend through the plexiglass cover of the cluster (Figure #4).
